## County Ticket.

FOR REPRESENTATIVE,  
R. P. HOCKER.

This is the last week before the election. Our neighbor, the *News*, has been published on Tuesday. This week, for reasons best known to themselves, the *News* is held back, and has not yet made its appearance. What is the matter? Are you afraid of having your tricks ventilated and exposed? We warn the people against any statement made on the eve of the election by a paper that will resort to such trickery. The *HERALD* is on time. We are not afraid of having our statements examined and criticized by the *News* or any other man. We deal in facts and figures, and our statements are backed by the records.

All true Democrats will be sure to vote for the Democratic nominees next Monday.

Jim McKenzie is coming and will be at the Court House to-morrow (Thursday), at 11 o'clock.

Mr. J. M. Rogers, of Buford, called on us Monday evening. He reports business fair in his little hamlet.

Why is Dr. Meador, as a Representative, like a tardy school-boy? Because he is often absent at roll-call.

The Supervisors of Owensboro raised the value of the taxable property of that little city just \$100,000.

The McLean county Fair will be held commencing Tuesday, October 14th, continuing five days.

Read the act in our supplement concerning the call of a constitutional convention, and vote for it next Monday.

It was Jesse G. Atter that fired the fatal shot that killed "Mit" Tanner. He has had his examining trial and was acquitted.

The constituted authorities of all political parties, have declared in favor of a convention to revise the State Constitution.

The man who says he is a Democrat in principle but votes for a Republican from personal grounds simply sells his principles for personal favors.

Is not two terms in the Legislature about enough for one man? Dr. J. W. Meador has been there twice and now let Hon. R. P. Hocker go the second time.

Do not fail to read the letter of B. F. Butler in our supplement this week. It shows how much, unfortunately Union Soldiers are appreciated by the Republican party.

Democrats, do your duty next Monday. Vote the whole State ticket from Blackburn down, and finish with a nice, palatable dessert by voting for Hon. R. P. Hocker for Representative.

Go to the Court House to-morrow and hear Jim McKenzie tell all about free quinine, free tobacco, free elections and how to preserve our freedom of speech, of the press, &c.

Is a man, who, after going the second time to Frankfort, cannot tell nearer than 40 miles the distance, shrewd and capable enough to make us a good Representative?

The *Western Recorder* has helped itself to a brand new dress and looks ever so nice. We are glad to note this evidence of progress. The *HERALD* wishes the double C's much prosperity.

Hox, L. E. GREEN, of Grayson county, is invited to speak at the barbecue at Bennett's Ferry next Saturday, August 2d. The petition for him to do so, is numerously signed by citizens of that part of Ohio county. Will he be there?

The Chairman of the Democratic, Republican and Working Men's Committees of the 6th Congressional district, have issued a joint circular, calling on the members of their respective parties to vote solidly for calling a convention.

Six cadets have recently been dismissed from West Point Academy for "hazing." Good for the authorities, and may the direct punishment be inflicted upon any and every cadet who may hereafter ever attempt "hazing."

JOHN B. FAIRBANKS, one of the youngest, wisest and spriest editors in the State, has severed his connection with the *Russellville Herald-Enterprise* by selling out his interest to his partner, W. F. Barclay, who is now sole proprietor and editor.

THOMAS ON THE OWENSBORO AND Nashville railroad have not commenced running regularly yet. President Cole thought the track was in too bad a fix to risk the lives of passengers. It is now being repaired and then trains will run regularly again.

The constitutional convention is a necessity. Every voter of every party should vote for it next Monday. Every vote not recorded for it is counted against it. It requires a majority of the votes of the State as shown by the Assessors' books for 1878-79 to be recorded for the measure to secure it.

Let this relic of the dark ages (Whipping Post law) be blotted out. (News, of last week.)

So say we, and we propose to make the start next Monday, by voting against Dr. J. W. Meador, who voted in the last Legislature, for such a law.

If you want officers already receiving large enough salaries, to pay them for all they can do voted extra pay of \$3,000 a day, then vote for Dr. J. W. Meador, for he voted for the Assistant Librarian to have \$3,000 a day extra pay.

It (the whipping post law) is inhumane. *Ohio County News of last week.* If the act is inhumane how is the man who votes for it, and tries to enact it into a law? This is what Dr. J. W. Meador did.

ARTHUR COHEN, president of the Manhattan Beach Railroad and Hotel Company, New York, announces that he does not want Jews to ride on his cars or stop at his hotel. The Jews are of course indignantly at being thus publicly insulted and ostracized. We can see no good reason for such an act.

The Daviess county fair will be held at Owensboro, commencing Wednesday, October 8th, 1879, and continuing three days. The *Messenger* says the amphitheatre being reconstructed, and grand preparations are being made, and the prospects for a successful fair very flattering.

DR. J. W. MEADOR said in his speech at the barbecue at Balizetov last Tuesday, that he did vote to raise the salary of the Door-keepers of the Senate and House of Representatives, and would do so again. He undoubtedly said this, so voters, you know what to expect.

The Whipping Post law is simply an outrage on civilization. (*News*, of last week.)

Then is it not simply an outrage on the common sense of your readers, to advise and insist on their voting for Dr. J. W. Meador, who voted for, and endeavored to get such a law passed in Kentucky?

DEMOCRATS, of Ohio county, please do not forget that our vote in State, Congressional, Judicial or Senatorial Conventions for the next four years will be determined by the vote we cast next Monday. Then let's turn out to a man and vote the ticket straight through and thus give us the voice we are entitled to in future conventions.

Are you in favor of the Door-keepers of the House and Senate having \$8,000 a day for doing nothing? While you toil late and early and stint yourself and deny your family many of the comforts of life in order to pay the tax thus lavishly expended, then vote for J. W. Meador, for he votes to raise Door-keepers' wages from five dollars to eight dollars a day.

First.—The Republic of the United States is a nation, not a confederacy of sovereign States, and its government is clothed with permanent authority for the regulation of all subjects of national concern.

So say we. But how about the man, who, as our representative, votes for, and tries to secure the passage of a law for 30 stripes on the bare back, to be well laid out? Dr. J. W. Meador is the man.

HAVE we not had about enough professional men in the Legislature? Dr. J. W. Meador has been there twice. We have had quite a number of lawyers and doctors in both branches, and now is it not time to send a farmer? Mr. Hocker was raised on a farm and has raised a crop every year since he was large enough to work except 1869. He is thoroughly identified with the farming interest.

We have a clear conscience that we have not made a false statement concerning the present race for Representative, and knowing that what we have said is true, and knowing that it cannot be successfully contradicted, we are on time with the *HERALD*. We could have played the same game and held back too, but we would not stoop to such a trick.

If you want to hear the naked truth about the partisan part and the great frauds enacted by the U. S. Marshals surrounding the polls and arresting thousands of Democrats, without cause, and holding them in durance vile until after the election was over and then turning them loose, go to the court house to-morrow, Thursday, and hear the talented, gifted McKenzie, the people's defender. He will tell you all about it.

The *News* dares to talk about consistency, but has no more right to do so than the kettle has to call the pot black. It says the whipping post law is "simply an outrage on civilization, an infamous thing, relic of the dark ages, inhuman, unchristian, and wholly beyond the dignity of our institutions," and yet it supports the candidate who voted for, tried to, and come very near enacting the whipping post law in this State.

Dr. J. W. MEADOR voted for the whipping post law. The *News*, his own organ, says the act is infamous, inhuman, outrageous and unchristian, and thus Dr. Meador is denounced as an unchristian, infamous, inhuman, outrageous man by his own paper. He is held by his own petard. He com-

plains of some things we have said of him but he never went half as far as the *News* has.

If the Democratic Greenbackers want proof that the Republican Greenbackers are going to desert the cause and vote for Meador they only have to read Wade N. Martin's letter in last week's *News*. Last year Wade N. Martin was a rank poison Greenbacker, now he says he is solid for Meador. Last year Geo. C. Wadling was a ranting Greenbacker, now he is howling for Meador and we could give 50 other instances of the kind.

The Louisville *Commercial* is now under control of a new company, with Geo. Eli H. Murray at the head. The other incorporators are W. S. Wilson, R. M. Kelley, A. E. Wilson and R. Dupont. The paper will be run on strictly business principles and will be thoroughly Republican. The company is a strong one and they will unquestionably make the paper a success. They have a wide field as there is not a Republican paper of any note south of the Ohio river.

Has the Ohio County *News* suspended? It selected Tuesday as its publication day, but it failed to show its motley face yesterday. Why? None of its editors or compositors are sick. The truth is, this being the last week before the election, and wishing to set at naught a lot of misrepresentations, false statements, pervasions of truth, &c., and to beeline the Democratic candidate, leaders and organs; and knowing that its every statement can be refuted, it resorts to this trick to prevent its statements from being shown up. Is this not a reasonable conclusion?

The *News* feeding and knowing that every statement it has made this week is vulnerable, untenable and far from the truth and wishing the effect of these false statements to go unanswered have held back their issue this week until the *HERALD* comes out.

WILLIS G. DAVIS, a former citizen of this town died at his home in Evansville, Indiana, last Friday of disease of the lungs and dropsy.

Are you in favor of the Sergeant-at-Arms of the House and Senate getting eight dollars per day for mere nominal services, while you have to labor from early morn to late at night at seventy-five cents to one dollar per day to make the money to pay the taxes out of which these officers are paid? then vote for Dr. Meador, for he, as your representative, failed to vote against this allowance of eight dollars per day, and had an opportunity to vote for its reduction to five dollars a day, but did not do it.

The Secretary of the Executive Committee of the Greenback party, says, in the columns of the *Agricultural-Legal-Trade*, that he has received information that convinces him that the 2nd Congressional District will give John C. Cook, the Greenback candidate for Governor, a majority. Well, now, if we ain't crazy, he will receive different information about the 5th or 6th of August. Dr. L. P. Blackman will carry this district by a very large majority, if we are a prophet or any kin to a prophet.

The Republicans of Pennsylvania in their recent State Convention among other things determined that "The United States is a Nation." The Wisconsin Republicans met the same day, and the following is one of the planks in their platform:

First.—The Republic of the United States is a nation, not a confederacy of sovereign States, and its government is clothed with permanent authority for the regulation of all subjects of national concern.

So say we. But how about the man, who, as our representative, votes for, and tries to secure the passage of a law for 30 stripes on the bare back, to be well laid out? Dr. J. W. Meador is the man.

Do not let any foolish prejudice keep you from voting the Democratic ticket next Monday. If there are some on the ticket not your choice, or whom you do not like, still they represent the principles for the political principles dear to your heart. Suppose there are one or more of the candidates not your choice, still do not fill the bill nearer than their opponents and if you do not go to work and help elect your own party candidate you thereby make it that much easier for the candidates of the opposite party to be elected.

The Republican stalwart speakers try very hard to create the impression that Democrats favor secession. On the 23d of March, 1876, the Democratic House passed a resolution embodying the sentiment "that a State has no right, from any cause, to secede from the Union." The Democrats voted for the resolution, but the Republicans voted against it, thereby placing themselves on record as believing that a State, under some circumstances, has a right to secede.

OWING to an extension of the term of Quarterly Court over Saturday and Monday, where Mr. Fogle was detained attending to duties towards his clients who were litigating, he was unable to fill his appointments as advertised at Fordville and Buford. He spoke, however, on yesterday at Rockport, and speaks to-day at Rosine. Mr. Fogle made a strong and forcible speech at Rockport, showing the Radical tendency to centralization and the historical place of what was settled by the war and conclusively representing to every unbiased mind that soldiers at the polls and supervisors of election and deputy marshals and test oaths for jurors were subversive of the rights and liberties of a free people.

WHAT a bitter vindictive spirit the Republican managers are exhibiting. Some one of them has tried to have Uncle Jack Mapleson's mail-carrier driven from here to Polville, because he has voted for a few personal friends on

the Democratic ticket. He has a far better Republican record to-day than their candidate for Legislature, Dr. J. W. Meador. He is a prompt, efficient carrier and it is nobody's business how he votes, he has given bond and security to discharge his duty and it is not a political office and the sneaking effort to oust him is low, mean and contemptible.

DR. J. W. MEADOR, while in the Legislature introduced a bill to reduce the fees of A. L. Norton, clerk of the Ohio County Circuit Court. Mr. Norton gets the same fees that all other Circuit Clerks get. He is a good clerk, an honorable man, and why was this? Ought not the fees of the Circuit Court Clerk in each of the 116 counties to be the same? Is the man who will prostitute the honorable position as representative of a large county in the law-making department, by bringing in a bill slugging out and attacking a solitary officer to gratify a personal feeling against him; or repeat, is such a man good timber out of which to make a Legislator? Why did he not do as Mr. Hocker did, bring in a bill to reduce the fees of all officers of the Commonwealth?

DEMOCRATIC Greenbackers, we have just a word to say to you. There is no probability, not even a seeming possibility, to elect your candidate, J. A. Bennett, Esq., next Monday. The contest is between Mr. Hocker, a farmer and Greenback Democrat, and Dr. J. W. Meador, a hard-money stalwart Republican. We tell you now, and next Monday's vote will prove it, nearly all the Republican Greenbackers of the county will vote for Meador, now if you stick to Bennett you indirectly aid and abet the election of Dr. Meador, who is against you financially and politically. By voting for Mr. Hocker you secure beyond a doubt, the election of a Greenbacker, one who is with you on all the essential principles, but be relieved of one sound-minded and honest man in the Democratic party. Which will you do?

Buford's Fate.

The jury in the case of Thos. Buford returned a verdict last Wednesday morning early, finding him guilty of murder and fixing his punishment confinement in the penitentiary for life.

A motion was made for a new trial which was overruled, and the case taken to the Court of Appeals. Buford has been sent back to jail in Louisville until the Court of Appeals acts on his case.

COMMONWEALTH OF KENTUCKY, SIXTH CONGRESSIONAL DISTRICT, &c.—According to an act of the Legislature, the Assessors throughout the State were ordered to list all the voters in the State, and as all voting for a Constitutional Convention will be counted against it, therefore the undersigned issue this as a call upon all the voters of the district mentioned below to interest themselves in the constitutional question by voting in its favor, and urging their acquaintances to do so.

R. W. NELSON, Chairman Democratic Ex. Com. JAS. K. STONE, Chairman Republican Ex. Com. W. C. HAYNES, Chairman Workingmen's Ex. Com. J. B. WATERHOUSE, Chairman W. M. L. C. Committee. NEWPORT, July 15, 1879.

A Republican Compromise to Green backs.

E. C. Hubbard is the Chairman of the Republican Executive Committee, of this Congressional District. In his speech at the barbecue up in Balizetov, he called the Greenbackers "Damn fools." Are these men, thus complimented, going to vote for Bennett, who has not a ghost of a chance to be elected, and thereby indirectly aid the election of the candidate of the party whose spokesman calls them damn fools and he too, a hard moneyed man? or will they vote for Mr. Hocker, who is in accord with them on all the vital issues of the day, and has never by word or act, insulted them?

Another Proof.

Another proof that Democrats are not hostile to Union Soldiers, or at least the Republicans are not their friends as they pretend to be, is the appointment by the present Republican administration of prominent Confederates to important positions and offices. For instance, John S. Mosley is Consul of the United States at the port of Hong Kong. We all know the history of Guerrilla Mosley. He was the King Chief among heartless, fiendish guerrillas during the war, but all he had to do was to join the Radicals and he at once became a Saint. He manipulates all the patronage, too, in sight, and is as corrupt as old Satan would have him be, yet he is retained in this important position, while the same men who approve of his appointment, and retention in office, are denouncing Democrats for electing humane, honest, upright Confederates to Congress. Mosley has provided a brother and numerous sisters, cousins and aunts with good Federal appointments.

Voters Look to Your Interests.

Are you in favor of Common Pleas, Criminal, Circuit and Chancery Judges, salaries being reduced from \$3,000 to \$2,000 a year? Then vote against Dr. J. W. Meador for he voted while in the Legislature against the reduction of Judge's salary from \$3,000 down to \$2,000. There are, if you are not mistaken, just 25 Circuit, Chancery, Common Pleas and Criminal Judges in the State. The saving to the tax-payers by this reduction would be \$25,000 a year. Before the war we got the best talent in the State, on the bench for \$1800 per annum and it seems that \$2,000 is enough now.

When Mr. Hocker ran before, he pledged himself in favor of the reduction of fees and salaries, and worked accordingly.

Dr. Meador each of the four times he has made the Legislative race has rode the retrenchment and reform horse, but when he gets to Frankfort he forgets the kind of a steed that carries him through safe and sound, and votes against reducing a Judge's salary from \$3,000 to \$2,000.

Col. John Barrett, of the Hartford *HERALD*, is moving the retrenchment and reform "mendow." The Colonel regards the past growth of the mendow as entirely too thin, and wants the interest of the county placed in another quarter. He is generally right.—*Hartford Reporter.*

## Constitutional Convention.

In former communications, we have endeavored to point out the necessity of calling a convention to remodel our State Constitution. The object we had in view, was to present the matter to the public and leave the question to be decided by the people and the press of the State. I believe the press of the State, without exception, have declared in its favor. The constituted authorities of all political parties in the State, have declared in favor of it, and I believe that a large majority of the voters of the State favor the measure.

A majority of all the voters of the State is necessary to carry the proposition—hence the friends of the convention should be sure to vote themselves, and have as full vote polled as they can for all who fall to vote, will be counted against it.

At the earliest, a convention cannot assemble until after the 1st of August, 1882, and if the proposition fails at the coming election, it will, of necessity, be delayed two years longer.

Then let all the friends of the measure, vote for it, and let us have a Constitution that will meet the demands of the age.

We need a Constitution prohibiting local legislation, defining the power of the legislature in regard to State aid to internal improvements, and prohibiting counties and municipalities from bankrupting themselves by voting aid to corporations.

We need a reorganized and revised judicial system in the State.

We need to get rid of the annoyance and expense of too frequent elections.

We need to have the obsolete and inoperative clauses of the Constitution stricken out. In fact, we need a complete and thorough revision of our organic law.

Give the matter serious thought, and you will not fail to vote for calling the convention.

Capt. Hill Speaks in Behalf of the Democrats.

Hon. Boyd Winchester being compelled to recall his appointment to speak here last Wednesday on behalf of the Democratic ticket, the large crowd assembled to hear him were determined to have a speech and they called on Capt. Sam. E. Hill, who, in a speech of about one hour, defined the issues involved in the pending canvass in an unusually bold and vigorous manner.

The Captain traced the contest for civil liberty and impartial justice from Magna-charter down to the present, called attention to the striking similarity of the issues of to-day to those of 1800 to 1860, defined the nice distinctions between Federal and State authority, and showed how dangerous to the perpetuation of free institutions for the people to permit any encroachment of the former upon the latter. He defined the difference between nullification and secession and the legitimate and constitutional rights and jurisdictions of the States; exposed and denounced the devious election and judicial methods of the Republican party, and enjoined an unfaltering support of the Democratic ticket at the approaching election from Blackburn to Hocker, and took his seat amidst a hearty and uproarious applause.

Altogether, it was the speech of the season, and proved too much for Mr. Geo. C. Wadling, who appeared for the Republicans, to answer. Mr. Wadling's speech was a respectable one, from a Republican standpoint; but instead of answering the Captain's argument, engaged in the usual delight of waving the bloody shirt and defending the great Presidential steal. But a few well-directed broadsides from the Captain's battery, sent Mr. Wadling to grass, amid shouts of applause and roars of laughter. Hurrah for Hill and Hocker!

DR. MEADOR'S WHIPPING POST.

How it Works in Old Virginia.

It Would be the Same Way Here.

And will be if Doctor Meador Can Succeed.

Interesting Reading.

In the Police Court at Richmond, Va., a woman, Mrs. Nancy Lynch, was sentenced to receive twenty-five lashes for stealing a piece of iron from the Chesapeake and Ohio R. R. Co. after she stood in the yard of the city jail, with her eyes fixed upon the whipping post, a stout brown post about seven feet high, with a few feet of rope attached to it, and a man called to an attendant, "Throw me down that tickler," whereupon a cowhide about half an inch in diameter at the butt and tapering down to a point, was tossed into his hand. Nancy shuddered. The official said, "Take down your clothes, Nancy, and hug the whither."

"Must I take all off?"

"Yes, and hug the whither."

Nancy unbuttoned her dress in front, and stripped to the waist, her upper clothing falling down over her hips and exposing to the gaze of the few bystanders a glossy skin from shoulders to waist. In a moment more she had embraced the "whither," or whipping post. She gripped the post, her head turned toward the official, and she raised the cowhide, seemed to nerve herself for the lashes. Rapidly the twenty-five stripes were laid on, each making a roar, and down to a point, the victim did not move, but as the remainder descended in rapid succession, she writhed and twisted in agony, and the tears poured down her cheeks.—*Ex. THE CONFESSIONER, THIS OUNTO COUNTY.*

NEWS FROM THE ABYSS.

The *News* last week published the above clipping and then commented on it as follows:

This is simply an outrage on civilization. Virginia cannot afford to practice such an infamous thing. Let this relic of the dark ages be blotted out. The *News* is entirely right, and the whole beyond the dignity of our institutions. Reform is called for in our criminal laws in all of the States. No criminal must be whipped, nor should be allowed to labor, but undergo punishment without

Now turn to pages 1,308 and 1,304 of the House Journal of our last Legislature and you will see that Dr. J. W. Meador voted for a whipping post law to punish petty larceny by stripes not ex-

ceeding thirty-nine on the bare back with an unwhipped cord they were to be well laid out. We agree with the *News* for once at least, and use its own language, and say the act "is inhuman, an outrage on civilization, unchristian and wholly beyond the dignity of our institutions. Let this relic of the dark ages be blotted out." The process the *News* takes to blot it out is to elevate to office a man who favors the law and voted for it. We say the proper way to blot it out is to spot the man who voted for and advocated the passage of such a law in the last Legislature. Fellow-citizens, blot out the man politically that dares, in the face of the civilization of this day and time, to advocate such a barbarous measure.

Republican Secessionists.

The Republican leaders and speakers are trying very hard to create the impression that Democrats favor secession. Mr. Wadling, in his speech, at the Court-house last Wednesday, called the Democratic party, the secession party, because they favored State rights. "The right of a State to secede from the Union, if ever contended for, by any Democrat, has been recognized by all Democrats, as being forever settled by the result of the late civil war."

In 1878, the Democrats had a majority in the House, and Mr. Cox, a prominent leader in the party, on the 23d of March, offered the following resolutions:

"Mr. Cox—I move to suspend the rules and adopt the following resolutions, which I send to the desk:

"Resolved, That the people of the United States constitute a nation in the sense, to the extent and for the purposes defined in the Federal Constitution.

"Resolved, That the Government of the United States is a Federal Government, and was formed by the people of the several States in their sovereign capacity; that the rights and powers of the United States Government are defined and limited by the Federal Constitution, and those rights and powers cannot be enlarged nor diminished except by an amendment to the Constitution.

"Resolved, That the rights of the States have the same origin and security in the Constitution as the rights and powers of the Federal Government, and that local domestic government by the several States within the limits of the Constitution is a necessary and essential part of the preservation of the liberty of the citizen and the continuance of our republican system of Government.

"Resolved, That the doctrine that a State has no right to secede from the Union is in conflict with the idea of a 'perpetual union,' as contemplated by the Constitution, and should be regarded as being forever extinguished by the result of the recent civil conflict."

These resolutions were voted for by every Democratic member present, Confederate Brigadiers, and all. 42 Republicans voted against the resolutions. Mr. Blaine was particularly bitter against the resolutions. 97 Republicans refused to vote, hoping thereby to defeat the measure, by reducing the vote below a quorum.

In the face of all this record, they insist that they are opposed to secession, and Democrats favor it.

To the Democracy of Kentucky.

The undersigned, the Central Committee, commissioned by your late State convention, which met in Louisville on the first day of May last, desire to address to you a few words pending the August election. In less than a fortnight you will be called upon to vote for one immediate representative and nineteen senators, who are to be your legislators—the former for two, the latter for four years; and on the same day you are to vote for seven State officers, including the Governor and Lieutenant-Governor, who are to administer your laws. The large majority wielded by the Democratic party of Kentucky for the past twelve years has led to a feeling of safety and overweening confidence, which, to the casual observer, is construed into indifference. An ever-vigilant foe hopes, at the coming election, to profit by our apparent want of interest which springs from your sense of confidence and security. We address you for the purpose of invoking you to dissipate these expectations, and to give us practical purposes, it is not essential that we should have an overwhelming majority, either in the General Assembly or for the State ticket. But remember that Kentucky, being the State which leads off in the elections for the current year, should see well to it that our encouragement is not given to our political enemies by permitting our majority to fall off through lethargy. Should this happen, it would be proclaimed far and wide as evidence of the increased strength of the Republican cause, and would be a severe blow to Ohio, Pennsylvania, New York, and other States, to increased efforts to perpetuate the power which, now central at Washington, presses so heavily upon the people.

Then throw off your lethargy. Be alert so assiduously fanned into flame by our opponents. Organize in your precincts, and wards, and let every man who claims the name of Democrat, or to whom the principles of our party, as opposed to Republican misrule, are dear to him, as well as his State and his family as well as his party, that he does not neglect to vote on the day of election.

The short time which has elapsed since our appointment, the fact that the head of our ticket has been unable, on account of ill health, to make a canvass, and other circumstances, need not to enumerate, have prevented our committee from organizing the campaign as thoroughly as usual in respect to public speaking. They therefore appeal to the Democracy of the State to make up for this deficiency by local organization and activity within their respective counties and legislative districts, and see to it in each county that they do not permit their representatives in State and Congressional, to be diminished by a falling off in the vote of their counties in the approaching election.

In addition to the political questions referred to above as at issue, you will be called upon to express your sense as to the propriety of calling a convention to remodel the State Constitution, and to vote not a political question, but the late Democratic State convention having, without a dissenting vote, adopted a resolution favoring the call, we deem it our duty to remind you of the fact, and to urge you to vote for the convention, bearing in mind that, since it requires a majority of all legal voters of the State, every one who does not vote for the convention will be counted against it.

STALWART VS. NEGRO.

The Oklahoma States' Finds Its Match in an Iowa Journal.

(From the Lamar (Iowa) Sentinel, Rep.)

While the amiable blither that prevailed at Congress during the reconstruction days was at its height the nigger was unfranchised.

He was invested with the ballot on the pretty theory that he was a man and a brother, was an infusion of sand in his make-up.

It was given him on the school-girl notion that affection for the party that gave him the ballot could make him his perpetual instrument.

But the nigger is less servile to the Republican party as a voter than he was as a slave.

He needs too much roasting—too much protection.

He can only vote the Republican ticket when surrounded by a cordon of Republican layabouts.

There is no grit in him.

There is more voting energy and party strength in a dozen raw Irishmen than in a ton of nigger.

The more negro the less strength.

As a slave, the picturesque misery of a nigger was an unfeeling misery of party weapons—as a freeman there is no romance in him—cowardice is no romance.

All over the South he is throwing his ballot for felons and traitors, when he votes at all.

He is too cowardly to vote his convictions, or too stupid to have convictions.

These figures are an advance upon the prices obtained the week previous.

—Mr. W. O. Liles, of Buchholz, has left with us a plant of tobacco grown by him this year in which he tested the tobacco germ. The plant was topped and germinated at the same time. Tobacco thus germinated begins to spread and ripen, retaining all that substance which is lost in suckering. The tobacco grown by this process will ripen about three weeks earlier and will weigh much heavier than tobacco grown in the ordinary way. We believe that the germ will prove a success to the tobacco raisers of the county. Mr. Liles had such faith in its merits that he has purchased the right of this county of Mr. T. J. Harvey.

PERSONAL MENTIONS.

Mr. W. H. Coppage and wife, living in the vicinity of Barrett's Ferry, called to see us last Monday.

Miss Amanda Wade, of Tontown, is visiting Mr. and Mrs. E. E. Kinsley, of this place. We had the pleasure of a call from her on Saturday.

Mr. Z. Wayne Griffin, who has been confined to his room for a week or more with rheumatism, we are glad to learn, is improving and will be able to be out soon.

We regret to learn of the continued illness of Judge R. S. Mosley. He has been confined to his room for about two weeks. We hope to see him out again soon.

H. W. Lewis, Esq., who has been clerking in the Hartford House for several months past, left yesterday for Rosine, which place he will make his future home.

Our old friend, S. W. Kirby, called on us last Monday. He has just returned from a three month's absence in Louisiana. He was at Memphis on the 19th, when Yellow Jack was taking possession, and concluded he would not stand on the order of going, but go out once.

Mr. Chas. P. Berry, a young lawyer of Carmi, Ill., paid us a visit Monday. He and a friend, Jno. R. Jordan, started to the Mammoth Cave about three weeks ago, and Mr. Jordan took quite sick at Bethesda, this county. They stopped at D. L. Barnett's, and have been there since. Mr. Jordan has almost recovered, and they will return home this week, and not visit the cave this time.

We were glad to grasp the hand of our old friend, Eli B. Allen, on Monday last. He is one of our boyhood friends, and a true man. He has been making Owensboro his home for a long time. He is employed in the Government Revenue Service, and has been on duty as store keeper, at Tontown for some time, but is now similarly engaged at Owensboro. Eli says he is bound to have the HEMBOLD.

Show Your Hand.

I have received information, from a source that I deem reliable, that some body body has been intermeddling with my affairs and neglecting his own business.

Some person, sneakily and secretly, has written to the Department at Washington, that as mail-carrier from Hartford to Belleville, I was not discharging my duty. That I was associated with rebels and doing all I could to aid them. That a rebel paper to be issued so that I could carry it out, and that I had voted for Democrats.

I have discharged my duty as mail-carrier faithfully, for the truth of which, I refer to the Post-masters.

During the war I was a Union man all the time, and since the war there have been no rebels here. I have not, nor never have I aided or abetted rebellion in any way. I have always started with my mail on or before schedule time. There is no rebel paper, that I know of published here. I have voted for some Democrats for office but they are not our rebels. Capt. Sam E. Hill, a Democrat and an Ex-Federal soldier, Capt. S. K. Cox, another of the same kind, and others. I never voted for a rebel or one who had been a rebel. I have no regrets for any vote I have ever given. I have no doubt but the person, writing to the department, desired to get my contract set aside so that he could get it himself. Has he the manhood to show his hand? A. J. MARLIS.

Hartford Water Mills.

This is the place to go for your grinding and carding. They are up with their work, and you will not be detained, but can carry your grist or rolls home with you, making one trip do. We have a full line of "Gates" goods for sale for cash or exchange for wheat and wool. Flour, meal, bran and rolls for sale or exchange for wheat, corn and wool. Jno. R. & Wm. PHIPPS.

Mrs. Dunaway on Men.

Mrs. Dunaway of the New York Herald at a literary reunion at Salem, Oregon, "toasted the gentlemen as follows: 'God bless 'em! They have our joys, they double our sorrows, they trade our sorrows, they quadruple our cares, they excite our magnanimity, they increase our self-respect, they awake our affections, they control our property, and they would be a very dreary world without 'em.' In fact, I may say, without men it would not be much of a world any longer. We love 'em and the dear beings can't help it; we control 'em, and the precious fellows don't know it. 'As husbands they are always convenient, though not always on hand, as beasts they are by no means 'matchless.' They are most agreeable as visitors, they are handy at State affairs, and indispensable at oyster parties. They are splendid escorts for some other fellow's wife or sister, and as friends they are better than women. As our fathers they are inexhaustibly grand. A man may be a failure as a husband, a weak in constitution, not enough to boast of as a beauty, nothing as a politician, and cover his plumed head with a man's right, and even not very brilliant as a member of the press; but if he is our father we overlook his shortcomings, and cover his plumed head with the divine mantle of filial duty. Then, as our husbands, how we love to parade them as paragon! In the sublime language of the inspired poet: 'We'll be for them, We'll be for them, We'll do anything but die for them.'"

At a meeting of the Bonapartists held in Paris, on the 28th inst., it was agreed to accept Prince Jerome and recognize him as the representative of the Napoleon family.

## Democrats as Greenbacks.

[Editorial Register.] We have contended ever since the inception of the Greenback party, that a new political party, or even based upon the Greenback idea alone, was as unnecessary as the fifth wheel to a wagon. The history and action of the Democratic party show that Mr. Belmont is the true Greenback party. For proof of this we will give a few of the votes in Congress since the war. First, on a bill introduced by Mr. J. Randall, of Iowa, to tax U. S. bonds, the vote stood 63 Democrats and 3 Republicans for the bill, and 77 Republicans and no Democrats against it. When the National Bank act was passed, the vote stood 5 Democrats and 95 Republicans for the bill, and 51 Democrats and 47 Republicans against it.

In 1868 a bill was introduced in Congress, to change the Greenback bonds into gold bonds, on this proposition the vote stood, 1 Democrat and 123 Republicans for the bill, and all the Democrats and 19 Republicans against it. In 1870 a bill was introduced by S. J. Randall, requiring the issuance of five hundred million of new bonds, on this bill the vote stood, 11 Democrats and 19 Republicans for it, and 10 Democrats and 19 Republicans against it. In the same session a bill was introduced to issue four hundred million of new bonds, on this bill the vote stood, 21 Democrats and 1 Republican for the bill, and 3 Democrats and 119 Republicans against it.

Thus, the votes up to and through the last session of Congress, but we think the above are sufficient for the purpose, which is to show that the Democratic is a sound money party, and that the Greenback party, being in the majority, is unable to pass bills of relief for the people, what can the Greenbackers expect to do, except to make a party of the people, and divide the Democracy on this question when we can, by a united effort, elect a President in 1880 who will be in record with the majority of Congress, and the bills of relief can be passed without the certainty of a veto.

When a board of eminent physicians and chemists announced the discovery that by combining some well known vegetable remedies the most powerful medicine was produced, which would cure such a wide range of diseases that most all other remedies could be dispensed with, many were sceptical, but proof of its efficacy by actual trial has dispelled all doubt, and to-day the discoverers of that great medicine, Hop Bitters, are honored and blessed by all as benefactors.

Doctors.

Unfortunately for all small towns, they have no doctors. No matter what happiness is wished, what hearts are broken or what lives are poisoned by the venom distilled from the tongue of the gossip, the moment's gratification of saying something injurious to the character of a fellow-being is sufficient reward. Many a character has been and will be ruined in the world, by the stab in the back of a gossip. The better to disguise its deformity, it assumes the fair white form of friendship, and the unsuspecting victim is awakened by a cruel stab in the heart's core. An evil word spoken, as if in secret, travels as lightning itself cannot. It gathers force like a whirlwind. It is twisted, distorted and grows more horrible, the further it travels, until at length some one is hurried beneath its weight. The evil once started on its deadly way, there remains but little chance of justification. One cannot check an avalanche, nor can a character be restored to its unsullied purity by the redress of forgiveness. To find the author of gossip is to gaze into the depths of the sky for some yet undiscovered planet.

Hunts Wanted.

Having accepted a contract to get out a large lot of saw-logs on Rough Creek near the mouth of No. Creek, will want to secure a crew of men and a lot of good lands commencing August 1st, 1879. D. J. TREKKA.

A Fool Once More.

"For ten years my wife was confined to her bed with such a complication of ailments that no doctor could tell what was the matter or cure her. I used up a small fortune in lumbing stuff. Six months ago I saw a S. A. flag with Hop Bitters on it, and I thought I would try it. I tried it, and it fully proved to be wisdom. Two bottles cured her, she is now as well and strong as any man's wife, and it cost me only two dollars. Such folly pays.—H. W. Detroit, Mich.

Pre-eminence.

As an elegant hair dressing stands Parker's Hair Balsam, deservedly popular here, for the beautiful hair it produces, and its cleansing and healing properties. Commencing at the roots, it promotes a luxuriant growth of young hair, and unfailingly restores gray or faded hair to the original youthful color, giving a soft, rich and lustrous appearance of great beauty and value. It is pleasantly cooling to the scalp, cleanses it from dandruff, cures itching and humors, and stops falling of the hair. It is perfectly harmless, equally recommended for the soldier or the man of the hair, and pleases every body by its many excellent and attractive qualities. A patron assures us he has used Parker's Hair Balsam for years, and that it has kept his hair in perfect condition, and that Parker's Hair Balsam surpasses them all. Sold in large bottles, at only 50 cts. and \$1.00, by Z. Wayne Griffin & Co., and druggists generally.

A Woman's Loss.

It has now become a mooted question among scientists whether or not woman's primitive beauty and vigor, which has been found, could not be restored and extended by the action of certain constitutional agents. These agents must necessarily regulate and build up, fortify and antagonize all existing faults, irregularities and obstructions which have produced the ill health must revitalize the blood and give youthful bloom to the cheeks. The remedy must also act upon the stomach, must aid digestion and strengthen the feeble. We are glad to announce that such a remedy has been found, and thousands of ladies are being restored by its use. It is known as Dr. Druggists' English Female Bitters.

THIRTY FEET OF BOWELS!

Reader, did you know that for thirty feet the bowels are lined with a network of the sensitive nerves? This surface is quite delicate, and frequently by the use of strong, violent purgatives this tract is horribly torn, irritated and convulsed by their gripping action, which affects the whole system. You do not need pills, but an unpleasant, invigorating tonic action, something that will give new vigor to the stomach and general system, by gently cleansing the bowels and restoring the system by natural means. By using Bile's Saline Aperient you have the pleasant cathartic action desired. By its saline action it is a wonderful preventive against diseases, having their origin from exposures of hot or cold climates.

MALARIAL HEADACHE.

Which returns at regular periods, sun, pain, neuralgia, dizziness, diarrhoea, chills and fever, are induced by and permanently cured by the use of a few doses of Bile's Aque Tonic. It never fails to cure long standing cases. Its powerful action is such that the cures are made by a prompt action upon ALL THE SECRETIONS, thus thoroughly antagonizing the malarious poison. Bile's Aque Tonic is received kindly by the stomach, produces no unpleasant symptoms and contains no injurious drugs. Two or three doses of the syrup have cured a child in many cases. One taken before breakfast is an effective prevention to those who may be exposed to a malarious section. 29-2f

The True Way to Invigorate.

The true way to invigorate a feeble system is to infuse activity into the operations of the stomach, that wondrous alembic in which the food is transmuted into the constituents of blood, the chief element of our vitality. Hosts of Stomach Bitters, because it accomplishes this end, is greatly to be preferred to many so-called tonics, useful indeed as invigorated by it. Its tonic influence is soon made manifest by a new burst of vital energy and a more active and regular discharge of every physical function, and it has the further effect of rendering the system unsuassible by malarial epidemics. 29-1m

# EDUCATIONAL.

EDITED BY W. L. HAWKINS.

THERE is no reason why a newspaper should publish matter unfit to be discussed in the family or social circle. On the contrary, everything in a paper that is sent broadcast into thousands of families should be as pure and as free from indecency as the conversation of the most refined Christian family. The plea that the newspaper is a mirror of everything passing in the outer world, and therefore, must hold up that which is low and vile as well as that which is noble and good, is sophistry too transparent to need comment. Let editors and managers choose what to publish, and they will not have freely talked of among their wives, daughters or sisters, shall ever appear in their publications; for there is no more potent means of weeding out, in the family circle, than the weekly paper.

THE teacher who does not so conduct his teaching as to render his pupils self-reliant is a failure.

None but the best are good schools.

THE fault in some neighborhoods is more frequently with the patrons, than with the teachers. They have many successful schools. They furnish seats that seem to be invented for the wanton torture of their children and they avoid the schools as though they cannot bear to see the little fellows suffer through their contrivances.

TEACH your children how to date, fold and direct letters. Nothing is more important nor more neglected.

GIVE the little boys, but, where would you now be? Faith, and I believe, walking the streets alone.

G. C. "Priming" is no "law" by which you can keep a child after school hours, and until "the other children are out of sight." The father of the child was justly indignant, and that he did more than to tell you that he preferred some other mode of getting along with his children, "deserves your thanks."

WE saw, the other day, an advertisement of a magisterial show which was not to be exhibited by a professor! My! How low has the capital fallen! Teachers, drop the shabby, feigned appellation and be plain, shabby mister.

WE tender our heartfelt thanks to Capt. Will. H. Harvey, of Jno. P. Morton & Co., of Louisville, for the present of "Teacher's Note Book." Besides its convenience, it contains much useful information.

WE knew that bent pin in Prof. Mc's chair had an exceedingly effect, but we expected it to pitch him headlong into the superintendency?

MISS N—— had all her relations assembled to advise, and give her permission to cut a wig on her forehead. A short time after, she fell in love with and married an adventurer, a mere vagabond, without asking advice of anybody.

OUR good friends at Buck Horn are assured that we have not forgotten our promise to visit them. We were deterred for a long time by the bad conditions of the roads, since, we have been so busy in our school that we have not had time. We will be over as soon as possible after our school is closed.

WHEN we see professor stuck to a man's name in the papers, we often wonder if he is a sleight of hand showman, a con man, a monkey trainer, or only a poor devil of a school teacher. How we pity the teacher who has an ambition to be associated with the professor!

WHAT would be thought of the man who, as soon as he gets a license to practice law, quits study, quits reading, makes no effort to further improve himself in his profession? Would he not soon lose the confidence, the patronage of the esteem of all? And is not so in all the professions? Pre-eminently so in the profession of teaching? Teacher you must read, you must study, you must work, you must inform yourself if you want to retain the patronage of a thinking man, if you want to be useful.

The *American Journal of Education* and *The Educator* cost two dollars and sixty cents. The amount can be spent by teachers, school trustees and, in fact, by persons interested in education, in no more profitable manner. Besides the positive help in the school room, you derive from them knowledge of what is going on in the world, in matters pertaining to your best interest and that of your children. May the day speedily arrive when the reading of one or more educational periodicals shall be required of every teacher, by law! Amen! So note it be.

"GAY, my son, children," said the superintendent in a Sabbath School, "tell me, in what is more blessed to give than to receive?" One little hand up. "Ah, what is it, Jimmie?" "Ah, it is giving, sir."

THE National Teachers' Association which was organized in Philadelphia twenty-two years ago, will meet again in that city, this year.

SOME parents in raising their children, heed little to them the most pernicious principles of hatefulness, resentment and prevarication, and when they are grown up, the parents are astonished that after all the pains they have taken, their children are quarrelsome and deceitful men.

MISSO adds more to the value of your paper than the fact that it is equivalent to a good school. If you wish to draw immigrants of respectability and intelligence into your vicinity, build a good school house and establish in it a good permanent school. If you wish the immigrants, your children, at least, will grow intelligent, useful citizens, and will largely repay the investment. Try it and see if there is not more profit in it, than in any other outlay of your means.

WHAT has become of the educational department of the *Owensboro Examiner*? Friend Lumpkin, you have a good paper—every way worth the price, but, *homme de Dieu*, don't desert the good cause.

# NO CREEK NEWS.

Editor Herald:

Crops, looking well—have had a fine rain. Health good. Sabbath Schools very prosperous. The singing in the M. E. church is the very best, not too high. "Seraphs" is delightful. No Republican Sabbath School on No Creek. Paul, in speaking of knowledge, said, "It puffeth up." I must have had that effect on "Seraphs." If you cannot speak well in a Sabbath School, do not speak at all—hold your tongue.

Maine Democrats.

The State Convention—Nominations and Resolutions.

BANGOR, July 1. The Democratic State Convention was held today, and Governor Gardner was renominated by acclamation. The following is the platform:

Resolved, That the partisan acts of Congress, that withdrew the control of the Maine State from honest electors and placed it in the custody of the tools of the Executive are not designed to secure an honest result, but to enable a fraudulent administration to retain its power. That the power to buy up the refuse of every city under the name of Deputy Marshals, without limit as to their number or expense of the public Treasury, and the power in a single individual million of the Executive to arrest and imprison with or without warrant any and as many of the peaceable electors as he may choose to keep from voting, are powers too dangerous to be trusted to any administration.

That we approve of the efforts of Democratic members of Congress to secure the repeal of the obnoxious enactments against all traditions of the Republic, and we do not hesitate to declare that no further appropriation should be made by Congress to carry them into effect.

That we condemn the action of the Republican leaders in keeping alive sectional issues and hatreds engendered by the war, and we call on all true-minded and patriotic citizens everywhere to renounce no North, no South, no East, no West, but one whole country, composed of equal States in one inseparable Union.

That we are in favor of a currency of gold, silver and paper, the paper to be kept at par with gold at all times, and are in favor of a free, unlimited exchange of silver.

That we approve the measures of economy and the reduction of State expenditures inaugurated by the union of Democrats and Republicans in the last Legislature, and insist on their continuance in the future as the only salvation from ruinous taxation and the people's bankruptcy.

George W. Bain.

Bro. Bain has just returned from the Pacific Coast, and, judging from his looks, every breath has been freshened to him during his absence. He is enthusiastic in his praise of the country, people and climate of California. The Good Templars of San Francisco and Oakland gave him a royal reception on his arrival, a perfect ovation greeted him at almost every point he visited, and at the close of the engagement a public testimonial was given him in Badger Park, which is pronounced one of the grandest temperance gatherings ever held in the State.

Francis Murphy was present and gave the first address. Judge Thompson then gave a review of Bro. Bain's work, in which he said: "The Executive Committee of Good Templars looked the world over for a good lecturer for California; and after thorough search selected George W. Bain of Kentucky. We expected much of him when he came, because of what we had read of him, and now that his engagement is ended, I feel that the sentiment of all when I say he has surpassed all anticipations, goes far beyond what we expected of him as a lecturer, and the earnest desire is that he will soon be a citizen of California, and a permanent worker in this State."

Bro. Bain then gave his farewell address, at the close of which, from every direction, kind words and gifts were sent to call on friends to help him to carry them from the platform. *Temperance Advocate.*

The facts of a grand pension syndicate in Muhlenberg county are in our possession. Some of the parties implicated are officers, holding high positions of honor and trust. *Evansville Courier.*

Let these Facts See the Light.

The enterprising city of Evansville has just voted \$150,000 to build a new bridge from that city to the Ohio and Mississippi River in twelve months from date. That's business.

The Louisiana Constitutional Convention has fixed upon Baton Rouge as the capital of that State by a vote of 84 to 24.

The reporters and doctors of Cincinnati have recently discovered a *human autograph*, in the shape of a box with a tail. The discovery was made by a man who tried to do some spanking. The little monstrosity is five years old.

Messages from the Owensboro Messenger.

Mat Adams, who escaped from the Calhoun jail a few weeks ago and was recaptured, made an attempt to escape the second time Thursday night by sawing out with a saw knife, and he was caught in his clothing. She has since been taken to Henderson for safe keeping.

By order of the Secretary, Mr. T. S. Long, we announce that the Davies County Convention of the E. O. G. T. will meet with Woodland Lodge, No. 1,034, third and one-half miles south of Owensboro, on Saturday, August 25, 1878. Messrs. Denmore and Reid have been invited, and are expected to be present.

The rumor was abroad last Saturday, that Hanley Beard, a red head, had been killed in a threshing machine, and his life was despaired of. It was a source of gratification to those who know this excellent young citizen, that his injuries, though painful, are not so serious. His feet were accidentally caught in the thrasher and considerably mangled, but few bones were broken, and his entire restoration is confidently expected.

—On a quiet day in Terry June, when bees and birds were all in tune, two lovers walked beneath the moon. The night was full, so was the moon; they walked and talked beneath the shade with none to hear or make afraid. Her name was Sue, and his was Jim; and he was fat and she was slim. He took her and she took him. Says Jim to Sue, "By all the snakes that swim among the bushes and brambles, I love you better than wheat cakes." Says Sue to Jim, "Sweetheart, I love you, and I love you more than I love you."
